CLOSED UP THE CASE

Lawyers Argued for and Against Leighninger.

CHARACTER WITNESSES CALLED

Monday Afternoon Taken Up in Testimony to Show He Was a Law Abiding Citizen.

The Leighninger case is ready for the jury. Monday afternoon was taken up in hearing testimony bearing on the character of the accused. Some testimony in rebuttal was submitted by the state, and the arguments began this morning.

When the report of THE AGE closed Monday afternoon the defense had put Ray McGiffin on the stand.

"We expect to show that Ray McGiffin was standing within supporting distance of the parties who assaulted Leighninger and was near enough to help them, being armed with a loaded revolver," said Captain James.

The attorneys were tangled in an argument when Judge Hunter arose to explain. Judge Maxwell helped him, and Captain James reduced his statement to the mere fact that Ray McGiffin had on his person a loaded revolver at the time of the shooting.

McGiffin was excused, and Jesse Parks was called.

"Howard Leighninger did not say 'Now d—n you, if you say anything I'll kill four or five of you," said Parks. On cross examination his testimony was unshaken

Wells Smith was recalled, and said he told Leighninger about the threats he had heard. To Attorney Nicholas he said he thought Leighninger ought to know about it, and that is why he told him. He disclaimed any desire to cause trouble in the neighborhood. "I told Leighninger that Tom Calhoun said he would whip him. I only told him that. I didn't talk with Jim Babcock. I didn't tell him that Leighninger and Parks were going to the school and there was going to be a time. I don't remember talking to Babcock about it. I was baching with the Parks boys, and I didn't go and see Babcock. I didn't tell him Leighninger was going to the school and was going prepared." The witness refused to acknowledge anything on this line and was allowed to go.

Wilbur Stewart was recalled and said: "I told Leighninger I had heard they had it in for him at McCune's schoolhouse. I told him if I wanted to go there I would do it. I told him I would get a club and it too many jumped on me I would use it. This is all I remember telling him. I didn't tell him where I got this information."

"What was your idea in becoming a talebearer?" asked Attorney Nicholas in cross examination.

"I object," said Judge Hunter and it was sustained. The form of the question was changed and the witness did not give a direct answer. At length he said he told Leighninger because he had heard it. Attorney Nicholas attempted to have the witness explain why he did not act the role of the peacemaker, but Stewart refused to answer.

"Say, Wilbur, why didn't you tell Leighninger to go home and crawl under the bed, to go away back and sit down?" asked Judge Hunter, and the witness stepped down, while even the jury smiled.

John Richmond was called. "I live two miles north of Isleta. I know Leighninger, and I have lived in Orange almost 60 years. I have known Howard since childhood and have seen him often. I know his family. Howard's character is good."

Cross examined by Mr. Nicholas he said that so far as he had seen Howard's character is good. "I havn't heard of fights or troubles in which he was engaged. I never heard of any trouble he had with Hosic. I never heard of him threatening to shoot Angle." The attorney cited a number of other instances where Leighninger was alleged to have been implicated in rows, but witness said he knew nothing about them.

Captain James got down to the question of Leighninger's character and the prosecution objected. Captain James said in support of his position that a man might have a dozen fights a month and still be a law abiding citizen. He might be justified in fighting. "If he has spirit enough to resent insult he is not necessarily a dangerous citizen."

Judge Maxwell sustained the objection.

"Your honor, there is a witness in the room who has not been examined," said Attorney Merrell.

"That makes no difference so long as no testimony is being given," said Judge Maxwell.

"Don't interrupt the court," impatiently commanded Judge Hunter and Merrell sat down.

"I live at Isleta and I have known Leighninger from his birth," said T. W. Culbertson, the next witness. "I have the means of knowing his real character. He has been a peaceable, law abiding citizen to the time of his shooting."

"I don't know that I have expressed an opinion adverse to that," he said in cross examination. "I have no recollection of ever saying to Elmer Thompson that if I had laid a straw in the road of Leighninger I would hate to meet him." This statement was made emphatically to the jury.

Judge Hunter objected to Attorney Nicholas' "trifling questions" and a lively tilt followed.

"I talked with the father and mother of Thomas Calhoun about Leighninger's character after the shooting but I made no statement such as you give," replied the witness to Attorney Nicholas. "I have no knowledge of Howard having trouble with Hosic and Kirk Angle. I heard of him having trouble with Wolfe and Charley Early but it had no effect on my opinion. I never heard of him having trouble with Will Davis. If these stories were true they would probably affect my opinion of the young man. Leighninger's brother is my son-in-law"

Mr. Culbertson maintained that he believed Leighninger to be a peaceable and law abiding citizen.

Albert Wolfe, an Isleta dairyman, came next. "I have known Leighninger all my life. His character was good. I could say nothing else. He once struck me on the head with a piece of fence rail. A number of boys were burning stumps on my father's farm. We were having a good time. Howard didn't see me and threw a chunk of rail in play and struck me. I have the mark on my head. It was done in play and I have never had anything against him for it."

"It was merely an accidental injury," Wolfe said to Attorney Nicholas. "It happened 15 years ago." The attorney then asked about the Hosick and Angle matters but Wolfe had never heard of them. He had heard of the Early fight but knew none of the particulars. He had not heard of the Davis matter.

Judge Hunter objected to the line of cross examination and the usual tilt followed.

"I live in Oxford township" said Frank Norris. "I am a blacksmith. I have known Leighninger all his life. I see him frequently, and have the means of knowing his character. His character was good."

"I speak of what I have seen of him up until the shooting," said the witness on cross examination. The Angle, Early and Davis cases were brought out, but nothing was obtained from the witness.

To Captain James the witness said Leighninger's reputation as a peaceable, law abiding citizen was good.

Isaac Norris, aged 61, was next. "I have a variety of business, farming and the horse business. I have known Howard 20 years or more. I think I have the means of knowing his character. It is first rate. His general reputation as a peaceable, law abiding citizen to the time of the shooting was good."

Attorney Nicholas followed the line of cross examination through which other character witnesses had passed.

"Why didn't you put that in about Howard hitting Wolfe with a fence rail?" asked Captain James.

George Walters was called. He is from Isleta, and has lived there 20 years. "I have known Leighninger all the time I have lived there. I have seen him often. His character is good. I never heard anything against him. His reputation for peace is as good as men in general."

On cross examination he said: "I have heard of Leighninger having fusses a time or two, but they had no effect on my judgment that he was not a peaceable citizen. If he had been in the wrong it would have affected my judgment." Witness knew nothing of the Hosic and other incidents.

Mr. Felver said he lived at Orange and his business was a little of everything. "I have known Leighninger in the neighborhood of 20 years, and have come in contact with him frequently. He was a peaceable, law abiding citizen. His reputation was very good."

"I havn't struck anything in particular against him," said the witness in cross examination." I never saw him violating the law nor heard of him doing it before this shooting. That's all there is of it. I reckon."

James Orin was another Oxford township man who had known Leighninger many years. He testified to his good character and reputation.

John Stewart, section foreman at Isleta, testified that he knew Leighninger to be a peaceable man.

"We rest," said Captain James.

"Have you anything in rebuttal?" asked Judge Maxwell, and Attorney Nicholas said this was sudden and he would like to have time to go over some matters.

Captain James objected to the defense calling another lot of witnesses, and Judge Maxwell said time was passing. Court took a recess while Prosecutor Wheeler and his colleagues discussed a few matters,

At 4:20 o'clock Curtis Angle, of Plainfield, took the stand as the first witness in rebuttal.

Judge Hunter objected to the first question, supporting his position by saying the evidence must be confined to the pleadings. If the prosecution desired to bring out any specific incident, he (Judge Hunter) would have to go into a trial, call witnesses and inquire into the circumstances, not only in this one instance, but in every one that had been used by the prosecution. He spoke of the differences between character and reputation, and said in Ohio it was the same thing. Character is the result of reputation. They blend together. The boundary line between them is very thin. The prosecution, he argued, had a right to call witnesses as to character, but this must be brought out in examination in chief. "The prosecution can't attack this defendant's character by specific acts."

Judge Maxwell held the objection was well taken, and Attorney Nicholas complimented Judge Hunter on his argument. He went into the question of character and reputation, and argued for the testimony he desired to offer. He said he expected to show by the witness that he and his brother were in Isleta. Some person made the brother drunk and took him up the railroad. He went after him and took him back to Isleta. The man who had made his brother drunk attempted to regain possession of the brother. Leighninger appeared with a target rifle and after listening to the argument raised the gun and ordered the witness to shut his mouth and if he didn't he would shoot him. The witness shut up and went away.

Judge Maxwell told the jury that this statement was not to be taken into consideration and the witness stepped down.

The record was also made to show by the statement of Attorney Nicholas that the prosecution expected to prove by Howard Hosic that some six years ago Leighninger and Hosic were hunting. A rabbit was killed and they became involved in a dispute as to which had killed the rabbit. Leighninger then pointed his gun at Hosic and threatened to shoot him if he took the rabbit.

"The jury is directed to pay no attention to this rabbit and gun story," said Judge Maxwell.

"We expect to show by Charles Early that preceding last fall election Leighninger had gone to a neighbor and accused Early and two young ladies of taking his cow on hallowe'en and putting it in a pen. Election night Early and the young ladies went to Leighninger to prove they had nothing to do with the cow transaction. The defendant said he had only told the story in fun, but when they turned to go away he jumped on Early and beat him into insensibility," was another statement made for the record by Attorney Nicholas.

Court was adjourned until 8:30 o'clock Tuesday morning because needed witnesses were not present.

LAST OF THE TESTIMONY.

The Prosecution Closed With Brief Statements Tuesday.

There were few spectators in the courtroom this morning when court convened for the last day of the Leighninger trial. As Judge Hunter remarked they were now "running empties" and interest was flagging. The attorneys were preparing their arguments, only a few witnesses in rebuttal remaining to be heard.

Leighninger and his sister came in with Captain James, and Tom Calhoun was brought in later by two of his friends.

Attorney Nicholas said the prosecution had decided to "cut things very short," and the voice of Bailiff Jeffries calling witnesses had scarcely died in the distance when Edward Calhoun took the stand. He was examined by Attorney Nicholas and said:

"As we were walking near the coal house Charles McGiffin did not say to Leighninger he had something to settle with him, nor did McGiffin put his fist in Leighninger's face and say with an oath he could whip him.

"I know Harmon Huff, but I did not tell him that if Leighninger came to the literary we would meet him half way and he would get something he did not want.

"I also know Wilbur Stewart. I did not go to Stowe's store and ask for Leighninger. I did not say he had better not come to the schoolhouse as we would meet him half way."

James Babcock stroked his mustache with a bandana handkerchief as he prepared to answer questions. "I know Wells Smith," he began when Judge Hunter objected to the remainder of the answer on the ground that it was immaterial and not a matter of contradiction. He also objected to the air in the courtroom, and windows were opened.

Attorney Nicholas explained what he wanted to bring out by the witnesses, but Judge Hunter continued to object. Judge Maxwell sustained the objection and Babcock stepped down.

Charley McGiffin was called to deny saying to Leighninger he had a matter to settle with him, but Captain James said he had already denied it.

Tom Calhoun gave testimony from his reclining chair in the rear of Prosecutor Wheeler and the other attorneys. He denied that McGiffin had threatened to whip Leighninger the night of the shooting. He also said he had never said to Wells Smith that he could whip Leighninger.

"I believe then, your honor, we rest," said Presecutor Wheeler.

"We rest," declared Judge Hunter emphatically

The length of argument for each side was discussed by the attorneys. Nicholas wanted two hours for each side and Judge Hunter wanted three. Judge Maxwell decided on six hours for the arguments and at 9 o'clock Prosecutor Wheeler opened for the state.

Judge Hunter followed and Captain James came next. Attorney Nicholas closing the arguments for the prosecution.

CORONATION POSTPONED.

King Edwards Illness Necessitated an Operation—He Is Better.

[Special Telegram to THE AGE.]

LONDON, June 24—The coronation has been postponed indefinitely on account of the illness of King Edward.

The king underwent a surgical operation for perityphlitis, and a bulletin posted at Buckingham palace says the operation was successfully performed. A large abcess was evacuated.

The king's condition is satisfactory. The operation was performed for what medical men now know as appendicitis, the term given being the name formerly used.—Ed.]

FULL OF PUNCTURES

Are the Bulletin's Latest Excuses For Attempted Graft.

TRIES TO FOOL THE PUBLIC

Ridiculous Claims That Old Law Providing City Boards of Equalization Was Repealed.

In its eagerness to make excuses for the attempted graft of our late lamented board of review, the *Bulletin* makes a few more rank misstatements and flimsy arguments, as for instance

Under that law, which was repealed by the Longworth act, Coshocton, as a city of the second class, fourth grade, was required to have an annual board of equalization of the value of real estate and personal property, moneys and credits.

The *Bulletin's* statement that the old law was "repealed by the Longworth act," is untrue. The old law was not repealed, but is now in operation in Ohio cities except the six where the Longworth law is taken advanage of. Under the old law there is provision for an annual city board of equalization, consisting of the county auditor and six citizens of the municipality. The Longworth law does not in itself abolish these city boards of equalization, but merely provides that they shall be abolished "*upon the appointment* of a board of review in any municipal corporation." From this it will be seen that in those cities where there is no board of review appointed or created the board of equalization still stands.

The *Bulletin* adds:

Under that old law the county board of equalization, composed of the auditor and commissioners was prohibited from equalizing values in the city, its authority extended to towns and villages, but when Coshocton became a city the county board no longer has jurisdiction here. And therein both the Age and the Democrat have betrayed their lamentable ignorance of municipal government by picturing an EQUALIZATION board for Coshocton as a wholly unnecessary creation of offices.

The *Bulletin* exposes no ignorance but its own. THE AGE never said a board of *equalization* was unnecessary. We said a board of *review* is unnecessary. The *Bulletin* is simply ignorant in not knowing the difference between a board of equalization and a board of review. They are provided for under separate statutes and there is a vast difference between them. After the *Bulletin* editor learns the difference between the two he will see that THE AGE was not ignorant.

The *Bulletin* goes on:

As the law which compelled the council to appoint the equalization board was REPEALED Coshocton was left without a board to equalize property values unless the auditor applied for a city board, as provided by the new act or Longworth law.

This is another exposure either of ignorance or a desire to hoodwink the public into thinking the creation of a board of review was necessary. The *Bulletin's* assertion that the "law which compelled the council to appoint the equalization board was *repealed*," is simply false. We repeat our former assertion that it was not repealed. And if the Longworth law had not been taken advantage of by the whim of the county auditor and the state board, there could have been created for Coshocton under the old law a city board of equalization, which the old law provides shall consist of the county auditer and six citizens chosen by the city council. The old law fixes the compensation of each member at $3 for each day necessarily employed and limits the time from the fourth Monday in May to the fourth Monday in June. In small cities like Coshocton it is not expected that the board will have enough work to keep them employed all of the four weeks, hence there is no consistency in the *Bulletin's* allusion to the old law as "allowing a month's time, a total of $450 for the six members of the board." This misleading deduction by the *Bulletin* is evidently invented as a partial excuse for the salary of $1200 a year that was reached for by our board of review, of which the *Bulletin* is the "official organ." The total expense of a board of equalization in a small city like Coshocton under the old law ought not to exceed $100 a year.

If the board of review's "official organ" will dig up a few more such flimsy excuses for the attempted graft of $4,350 a year, THE AGE will no doubt still find them as easily punctured as the last two batches have been.

NEEDLESS PIECE OF MACHINERY.

The Coshocton board of review has resigned. The county commissioners failed to provide salaries for the members, and the latter acted on the plan of no pay, no work. As the board is a needless piece of machinery, the people are resigned as well as the board.—Uhrichsville Chronicle.

While the Chronicle regards our board of review a "needless piece of machinery," it was really a much needed part of Mr. Hay's political machine, for with the power to change assessors' returns he could reward his factional followers and punish his opponents to his heart's content. A man who, while acting on a jury commission, would put his factional benchmen on the jury list then tell them of it, so they would reciprocate the favor, could hardly be expected to stop short of an equal abuse of the powers of a board of review. So the Chronicle must not think this piece was a needless adjunct to Mr. Hay's political machine.

WORLD OF POLITICS.

Fusion May Be Effected in Nebraska and Kansas.

Grand Island, Neb., June 24.—Delegates to the Populist and Democratic state conventions are pouring into the city. Over 1,200 delegates are accredited to each convention and at least 2,000 are expected to attend. The question uppermost in the minds of the great majority of delegates is whether or not fusion can be accomplished and a candidate selected to head the ticket that will be satisfactory to all factions. It is still the unanimous opinion that if Mr. Bryan will accept the nomination for governor there will be little left to do but divide the rest of the ticket.

Fusion In Kansas.

Topeka, June 24.—The Populist state convention met here today to nominate candidates for supreme judges, lieutenant governor, treasurer, superintendent of insurance, attorney general and congressman-at-large. Two other places on the state ticket were filled by the Democratic state convention a month ago. The Populists are expected to ratify the ticket. The two parties hope to effect fusion and yet not disobey the provisions of the law against fusion.

Fusion Candidate.

Seward, Neb., June 24.—The fusionists (Democrats and Populists) of the Fourth district of Nebraska renominated W. L. Stark for congress.

Demand of Cuban Negroes.

Havana, June 24.—At a meeting of the colored inhabitants of Cuba the participants voted to petition the Cuban congress to annul the existing military orders, which make distinctions against the blacks. They denied any intention of rising, and said they were not conspiring, but simply claiming their rights legally and with dignity. They declared the country belonged to them equally with the whites, and expressed a desire to live in peace. Those present at the meeting also asserted that the black and white races were on an equal footing in Cuba. As a result of the recent clamor raised by the blacks for office, they have been offered 80 places on the police force and 12 positions as letter carriers.

Paterson Strike.

Paterson, N. J., June 24.—It is estimated that 20 per cent of the employes of the silk mills for whom looms were ready stayed away from work. No general strike of the silk workers has been ordered and none is likely for a day or so, if at all. Several conferences were held during the day between subcommittees and the mill owners. During the talk the whole strike was reviewed, and it was intimated that an agreement may be reached.

Officers Held Responsible.

Chicago, June 24.—O. E. Miller, president, and Henry Clark Davis, general manager of the St. Luke's society, were held responsible by the coroner's jury for the fire at the St. Luke's sanitarium, which destroyed 11 lives. The four other employes arrested after the fire were released. Miller and Davis were re-arrested a few minutes after the verdict of the jury was read.

Murdered by Boxers.

Peking, June 24.—An American missionary named Caneright has telegraphed to Peking from Chenk Tu Fu, in the province of Suchwan, saying that a Methodist chapel there has been destroyed and 10 Chinese converts have been killed by Boxers. Mr. Caneright also says that the Boxers' movement is spreading in that region.

MOODY TO THE RESCUE.

New Secretary of Navy Comes to a Car Conductor's Assistance.

They are telling a story in Washington about the new secretary of the navy. Mr. Moody was riding on one of the Boston surface cars and was standing on the platform on the side next the gate that protected passengers from cars coming on the other track. A lady, a Boston lady, came to the door of the car and as it stopped started to move toward the gate, which was hidden from her view by the men standing before it.

"Other side, please, lady," said the conductor. He was ignored as only a born and bred Bostonian can ignore a man. The lady took another step toward the gate.

"You must get off the other side," said the conductor.

"I wish to get off on this side," came the answer in tones that concealed the officials' momentary surprise. Before he could either explain or expostulate Mr. Moody came to his assistance.

"Stand to one side, gentlemen," he remarked quietly. "The lady wants to climb over the gate."—New York Times.

CONFISCATING COAL.

Railways Anticipate a General Strike. The Situation.

Terre Haute, Ind., June 24.—The railroad companies are apprehensive of general suspension of work among the coal miners, and are playing the situation into the latter's hands in the event of a tie-up of all the mines. In making sure of their own fuel the railroads are placing a weapon in the hands of the mine workers by curtailing the supply at this time. Operators complain in all parts of the Indiana field that the railroad companies have been confiscating coal for the last two weeks. Word has been received at the state headquarters of the mine workers here that practically the same conditions exist among the Illinois mines. In the meantime manufacturers and dealers, who are also apprehensive of a general suspension of work as a result of the convention to be held in Indianapolis in July, are trying to get a big supply ahead, but the railroads are beating them to it.

HUGE METEOR IN MEXICO.

Professor Henry Ward Estimates His Find to Weigh Fifty Tons.

One of the largest meteorites known to science has been unearthed in western Mexico by Professor Henry A. Ward, formerly of Rochester, N. Y., now of Chicago, says the Philadelphia Press. The first public announcement of his great find was made a few nights ago before the Rochester Historical society. Professor Ward is well known as the founder of the Ward Natural Science establishment of Rochester. His collection of meteorites is fourth in point of size in the world and contains many stones of great rarity and value.

The discovery of this great meteorite is considered an important addition to the knowledge of these mysterious visitors. The stone weighs over fifty tons, is over thirteen feet in length and lays buried by the terrific force of its own momentum nearly twenty feet in the earth. It plowed into it like a steel shell from a thirteen inch gun.

Professor Ward broke off small portions of the great mass as specimens for his collection, but left the remainder intact practically as he found it. He said that the cost of transporting it to the seacoast, seventy-one miles away, would have been more than $50,000. He succeeded in securing several fine photographs of the stone which show it in all its huge, unsightly shape.

DINNER FAVOR NOVELTIES.

Miniature Pingpong and Roulette Tables Are the Latest.

Latest among dinner favors is the miniature pingpong table, says the New York Times. It is 4 inches long by 2 wide and stands 1½ inches high. The table and legs appear to be of light brown wood with a fine grain, and the top is covered to within a quarter of an inch of its edge with light green cloth. The pingpong net is of white blonde cloth, held in position by two pearl headed pins. Near one corner of the table a tiny ball is caught and at the other a minute racket tied with a pale green bow is fastened. In the lower part of the table is the box for ice cream.

Another novelty in favors is a roulette table. The wheel is complete, including the ball and the mechanism for spinning it.

A favor for a bon voyage dinner is a steamship, perhaps five inches long, plowing its way through silvery waves formed of tinfoil. The steamship is a fairly accurate model and carries a tiny flag.

The latest in christening favors is a box with a cover perhaps five inches long that can be separated from the box and hung as a wall ornament. This top is done in bas-relief with plastic material. In the center is a cradle draped in pink and white in which reposes an infant. A stork stands at the foot of the cradle with one eye cocked at the baby. At one end a window is represented, and a tiny picture is also seen against the wall. The whole is framed in pink.

Motors In Porto Rico.

Porto Rico has a strong disposition to devote itself to practical matters says the Pittsburg Dispatch. An automobile line for the benefit of tourists is making regular trips across the island from San Juan to Ponce. A plan is under consideration to place powerful automobiles, drawing trailers, on the same road for freight purposes. Many fine roads are under construction in the island, and the slow bull carts hitherto used to carry freight will soon disappear.

Better Than Pills.

The question has been asked, "In what way are Chamberlain's Stomach and Liver Tablets superior to pills?" Our answer is: They are easier and more pleasant to take, more mild and gentle in effect and more reliable as they can always be depended upon. Then they cleanse and invigorate the stomach and leave the bowels in a natural condition, while pills are more harsh in effect and their use is often followed by constipation. For sale by C. E. Operators Won't Arbitrate.

New York, June 24.—President H. M. Olyphant of the Delaware and Hudson company made the following comment on the statement of President Mitchell of the United Mine Workers of America, issued in reply to that of the operators, in which the correspondence leading up to the strike was made public: "Mitchell's statement is misleading and unreliable as to facts and figures. If Mitchell proposes to call out bituminous miners and paralyze the entire industries of the country, he will find that he has taken upon his shoulders a job bigger than he is able to cope with. There will be no arbitration, that is certain. We will operate our mines again with the men that are on strike now. They will be only too glad to come back, and no strike leader will be able to keep them out." Mr. Olyphant declined to enter into any detailed denial of the assertions made by President Mitchell.

Provisions For Strikers.

Indianapolis, June 24. — Funds are being sent from the national headquarters of the mine workers in Indianapolis to furnish provisions for the striking miners and their families in West Virginia. Secretary Wilson says that three carloads of food are being sent daily from Cincinati to the strike district. The mine workers would not be surprised if they were enjoined from providing food for the strikers, as the injunctions issued a few days ago against them by Judge Jackson at Parkersburg are the most sweeping they have encountered. A few years ago they were enjoined from furnishing Kentucky strikers with food.

Strike at Laughlin Plant.

Pittsburg, June 24.—For some time the "inside" men of the structural works of the Jones & Laughlin plant have been disaffected because they were not included in the advance granted the laborers. The aggrieved men decided to quit because they were not granted the 10 per cent advance asked, and as a result 300 are out. Officials of the company say the strike is not serious and will soon be overcome.

Care of the Stomach.

At no time of year is it so necessary to be careful of the digestive organs as in summer. Vitality is always at a low ebb during a spell of severe heat, and the stomach needs a tonic. **BLOOD WINE** is highly recommended, because it aids digestion and gives a normal tone and strength to the whole system. FLASHED A BIG ROLL.

Cleveland Councilman Creates a Great Sensation.

CLAIMS HE WAS OFFERED A BRIBE.

Mayor Johnson on Hand and Names the Alleged Go-Between — Fateful Collision of Engines—Mayor Forced Out of Court — Other News of the Buckeye State.

Cleveland, June 24.—During a meeting of the city council Councilman Kohl suddenly raised up in his seat and held up over his head $2,000 in money, at the same time making the statement that it was the partial payment on what was to be a bribe of $5,000 to him for his efforts to introduce certain unfavorable amendments to the applications of the East Ohio Gas company (natural gas) seeking admission to this city. There was the greatest excitement in the chamber when this statement was heard, and Mr. Kohl immediately turned the money over to the council clerk. Mayor Johnson, who was present, then charged Dr. F. W. Daykin as being the man who was acting as a go-between, and who gave Kohl the money. The East Ohio Gas company is a Standard oil branch and wants a franchise to run pipes into this city.

Dr. Daykin was placed under arrest on the charge of bribery. He is locked up at central police station and will not be admitted to bail unless the police officials are ordered to release him on an order from court.

Filipino Greets Mrs. McKinley.

Canton, O., June 24.—Mrs. McKinley received from Felipe Buencamino, a former member of Aguinaldo's cabinet, the greetings and memorial which he was commissioned to personally carry to her. He came from Washington, accompanied by Frank L. Jeanni of the war department, serving him as interpreter. They were received by Mrs. McKinley and later entertained by former Secretary of State Judge Day, with whom they visited West Lawn cemetery and afterward dined at his home. The Filipino was affected by his meeting with Mrs. McKinley. The address contained reference to the distress which the Federal party of the Philippine Islands felt at the assassination of President McKinley.

Ejected the Mayor.

Zanesville, O., June 24.—Mayor James L. Holden was forcibly ejected from the court of Police Judge Reed here. The mayor asked that an affidavit against a woman charged with intoxication be withdrawn and when the judge refused, he insisted that he had the right to withdraw it. The judge ordered Chief of Police Tracey to eject Mayor Holden from the court room. The mayor resisted and Tracey's brother and others went to the chief's assistance. During the melee the mayor struck the chief on the jaw and the latter landed on the mayor's head with a club.

Fatal Collision.

Steubenville, O., June 24.—As a result of a collision between two light engines on the Cleveland and Pittsburg railroad at Mingo Junction, during a heavy fog, two men were killed and a number of others were injured. The dead: C. R. Walker, brakeman, Toronto, O., scalded to death; F. W. McElroy, Fairmount, W. Va., scalded to death. The injured will recover. Both engines were wrecked.

Fortune to an Old Slave.

Springfield, O., June 24.—Mrs. Elizabeth J. Howard, colored, of this city, who was born and reared a slave, has received a deed for 400 acres of land, valued at $40,000, from the daughter of her old master, J. W. Green. Miss Green, now Mrs. Harts of St. Louis, paid her former slave a visit last winter and found her in straitened circumstances.

President of Oberlin.

Oberlin, O., June 24.—J. G. W. Cowles of Cleveland was elected chairman of the board of trustees of Oberlin college. The election means that Mr. Cowles will be the president of Oberlin college until a permanent successor to the late President Barrows is named.

Doings of the Senate.

Washington, June 24.—A motion was entered formally in the senate by Mr. Quay (Pa.) to discharge the committee on territories from further consideration of what is known as the omnibus territorial bill—a measure to admit as states the territories of Oklahoma, New Mexico and Arizona. Mr. Quay spoke briefly but forcibly in support of his motion, maintaining that both political parties in national convention had pledged themselves to the admission to statehood of the territories. Mr. Beveridge (Ind.), chairman of the committee, said the measure had been put over until next session by the committee, because it was not thought there would be time to consider it properly. No action was taken on the motion.

Volcano Still at It.

Honolulu, June 17, via San Francisco, June 24.—Reports from the volcano Kilauea continue to tell of unusual manifestations of activity, and indicate that the display of force is increasing. There has, however, been no considerable outbreak. Many people have gone from Honolulu to see the volcano, and the Volcano hotel has been full ever since the outbreak was reported to be developing.

IMMIGRATION BILL.

Senate Committee Attaches to It Some Important Amendments.

Washington, June 24.—Senator Penrose, from the committee on immigration, reported the general immigration bill. There are numerous amendments in addition to the amendment changing the educational test. Among these is one increasing the head tax on immigrants to $3 per head, and extending it to immigrants coming overland, which is to be paid by the transportation companies carrying the immigrants. The time for the deportation of objectionable immigrants is extended from one to three years after landing, and the transporting companies bringing in such objectionable persons are required to pay half the land transportation where the immigrants have left the seaboard. There also are increased restrictions on the importation of anarchists and insane and diseased persons, and also on the bringing in of contract labor.

Friar Lands Question.

Washington, June 24. — Secretary Root declines to discuss the details of Governor Taft's negotiations at Rome until they are complete. They are proceeding steadily and in the usual course, each side seeking to make the best possible bargain, with the result that there have been several exchanges since the original proposition of Governor Taft touching the friars' lands. These are reported by the governor to Secretary Root by cable almost daily, with full explanatory comments by himself and suggestions to govern the framing of counter proposals. It is said at the war department that while naturally there have been some wide differences between the negotiators, there has been no such thing as an ultimatum or serious hitch.

Two Wars Compared.

Washington, June 24. — Debate on the Philippine civil government bill has warmed up. The increased interest is due to the injection into the debate of a comparison of the cruelties charged to have been practiced in the Philippines with those which occurred during the civil war. The subject has been lightly touched upon once or twice before, but attracted little attention until Mr. Grosvenor (O.) revived the memory of the extremities to which Grant and Jackson were put during the rebellion. This was followed by a speech from Mr. Mahon (Pa.), in which he paraded the horrors of Andersonville and Libby prisons. He predicted that in the coming elections the American people would stand by the army.

Collieries Abandoned.

Shamokin, Pa., June 24.—The Philadelphia and Reading Coal and Iron company withdrew the policemen and nonunion firemen from the Henry Clay and Big Mountain collieries, and will, it is said, abandon their operations. The water is within a few feet of the upper level in the Henry Clay and will soon run into the Sterling mines, which will also likely be abandoned. The working are all connected, and before the strike employed 1,400 men and boys.

Panama Canal.

Washington, June 24.—The friends of the Panama project have been making a canvass of the strength of the senate amendment in the house, and are confident that a motion to concur can command a majority. This, however, may become complicated by propositions to attach conditions to the concurrence, one of the conditions under discussion being a time limit for the period of negotiations to secure the perfected title.

McQueen Arrested.

New York, June 24.—William McQueen of this city was arrested at the request of the Paterson police, who charged that he incited a crowd of mill workers to riot. According to the Paterson police McQueen was one of the leaders of the disturbances in that city last week.

Struck In Sympathy.

Summit, N. J., June 24.—A delegation of the Paterson striking silk workers came here, and as a result the 750 employes of the Summit silk mill went out on a sympathetic strike. There is no dispute among the Summit workers and their employers.

Toronto Strike Settled.

Toronto, June 24.—The strike of the street railway employes is practically ended by signing of a compromise in behalf of the employes and company.

LONDON A GAY WORLD

Festivities of Coronation Week Now Raging on All Sides.

BIG TOWN OVERRUN WITH HUMANITY.

Entry Into London of King Edward and Queen Alexandra Occasions Jubilation—State Dinners and Rehearsals Engage Royalty, and Parades and Prize Fights the Plebeians.

London, June 24.—The entry into London of King Edward and Queen Alexandra formally opened the festivities of coronation week. Mighty multitudes thronged the decorated streets and tendered the royal pair a tremendous ovation. The king appeared to have fully recovered from his recent illness. Their majesties gave a grand dinner party at Buckingham palace to 70 royal personages, who practically represented the sovereigns of all the monarchies of the world. The list of their majesties' guests was headed by the czarewich of Russia, and included an imposing array of princes and princesses and all the members of the British royal family. Buckingham palace was beautifully decorated and the bands of the Grenadier and the Coldstream guards discoursed throughout the banquet. The dinner was followed by a brilliant reception, which was attended by the members of the suites of all the foreign potentates now in London.

None of the special envoys who arrived here, though they included princes of the greatest European dynasties, aroused as much interest as did Ras Makonnen, the Abyssinian general, and special representative of King Menelik. In picturesqueness and barbarian splendor the Ethiopian commander and his suite paled even the brilliancy of the oriental princes whom London has become accustomed to during the past week. Makonnen, who has black curly hair and a beard, wore a cloak of white silk, pantaloons, a shoulder cape of heavy white satin bordered with gold, and a broad-brimmed green felt hat. Three native chiefs who accompanied him were scarcely less gorgeous in apparel.

The coronation rehearsal at Westminster Abbey was a very striking performance, and gave a good idea of what the coronation ceremonies are to be. All the peers, peeresses and officials wore their coronets and robes and King Edward was impersonated by Sir Charles Spencer Ponsonby-Fane, gentleman usher of the sword of state, who wore robes similar to those the king will wear next Thursday. The Duchess of Marlboro, the Duchess of Montrose, the Duchess of Portland and the Duchess of Sutherland, who will bear the queen's canopy, were all present at the rehearsal, and another court lady impersonated Queen Alexandra. Everything went smoothly and the performance promised well for the dignity and perfection of the actual ceremony.

Mr. and Mrs. Bradley Martin entertained Whitelaw Reid and Mrs. Reid and a brilliant company of about 50 persons at dinner. The Bradley Martins' guests included the Duke and Duchess of Newcastle, the Prince and Princess of Pless, Prince and Princess Radziwill and others.

A Brace of Bouts.

Before the National club, Joe Walcott, the colored pugilist, won his 15-round fight with Tommy West of Brooklyn for the welterweight championship on points. Walcott fought for the body and did a deal of effective work. He was quicker in his movements than his opponent, and West was in a poor plight before the conclusion of the second round. After this round he improved and landed some severe jabs on Walcott's mouth. The two men were repeatedly in holds and the referee was compelled to separate them. In the latter stages of the fight West fought gamely, but to no purpose.

McFarland, the American, and Jordan, the Englishman, fought 15 desperate rounds, McFarland finally succumbing when Jordan landed heavily on the point of the jaw. It was anybody's battle up to the twelfth, and some terrific swats were exchanged.

Three Men Crushed.

Seagirt, N. J., June 24.—The partially completed rifle range caved in, catching three men, who were trying to escape, between the toppling front walls and the rear walls, crushing them to death instantly. The men who were killed were: Anson Hale, John B. Marsh and Jacob Shibley, residents of Manasquan, N. J. All three were married. Hale leaves a family of eight and Shibley two children. Last winter the legislature of New Jersey appropriated $7,000 to rebuild in concrete butts for the rifle range. The quartermaster general was in charge of the work. It had been completed with the exception of the frame work in the 500-yard pit. It was here the men were working. Colonel Olcutt says the accident was caused by the men removing the braces too soon.

AS BRYAN SEES IT.

Cleveland's "Harmony" Speech Not to His Liking.

INDULGES IN SOME CAUSTIC COMMENT

Record and Present Position of the Former Chief Magistrate Severely Scored in a Statement Issued by the Nebraskan — Hill and the Ex-President's Followers Not Overlooked.

Lincoln, Neb., June 24.—Hon. William J. Bryan gave out the following statement with respect to the address made by former President Cleveland at the recent Tilden dinner at New York:

The banquet given on the evening of June 15 by the Tilden club of New York city was advertised as a "harmony meeting," but it turned out to be what might have been expected of such a gathering, an ovation to the chief guest, former Democrat, Grover Cleveland. There can be no such thing as harmony between men like him and those who believe in Democratic principles, and he is frank enough to say so. He spent no time looking for "middle ground" upon which to gather discordant elements. He boldly called upon the members of the party to abandon their convictions and accept the construction which he placed upon Democratic principles. He even taunted the party with being a sort of prodigal son, and invited it to give up its diet of husks and return to its father's house.

Mr. Cleveland not only boasted of his course, but put his brand upon those who sat at meat with him. Having asserted that his Democratic faith compelled him to leave the party (or resulted in his banishment), he described the banqueters as sharing in that faith. He is not only defiant, but he insists that party success can only be secured by an open and avowed return to his ideas. Harmony is to be secured not by the suppression of differences, but by the elimination of those who differ from him.

He, Cleveland, secured his nomination in 1892 by a secret bargain with the financiers; his committee collected from the corporations and spent the largest campaign fund the party ever had; he filled his cabinet with corporation agents and placed railroad attorneys on the United States bench to look after the interests of their former clients. He turned the treasury over to a Wall street syndicate, and the financial members of his official family went from Washington to become the private attorney of the man who forced (?) the treasury department to sell him government bonds at 105 and then resold them at 117. He tried to prevent the adoption of the income tax provision, refused to sign the only tariff reform measure passed since the war, and, while thundering against the trusts in his messages, did even less than Knox has done to interfere with their high-handed methods. His administration, instead of being a fountain of Democracy sending forth pure and refreshing streams, became a stagnant pool from whose waters foul vapors arose—poisonous to those who lingered near.

Having debauched his party Cleveland was offended by its effort to reform, and gave comfort to the enemy. Virginius killed his daughter to save her chastity; Cleveland stabbed his party to prevent its return to the paths of virtue. And now, still gloating over his political crimes, he invites the party to return to him and apologize for the contempt which it has expressed for him. Will it? Not until the principles of Jefferson are forgotten and the works of Jackson cease to inspire.

Mr. Cleveland's speech should be read in full. It answers a useful purpose; it outlines the plan of campaign decided upon by the plutocratic elements for which the reorganizers stand. Tariff reform is to be made the chief issue, and the men who voted for McKinley, the high priest of protection, are to carry on a sham battle with their companions of 1896, while the financiers make the dollar redeemable in gold and fasten upon the country an asset currency and a branch bank system. Trusts are to be denounced in sonorous tones, while the campaign managers mortgage the party to the trust magnates in return for campaign funds. Sometimes imperialism will be denounced, but whether denounced or ignored, the secret and silent power that can compel submission to the demands of the financiers and to the demands of the trust magnates can compel submission to the demands of the exploiters and the representatives of militarism. The fight is on between a Democracy that means Democracy and a Clevelandism which means plutocracy. Every speech made by Mr. Cleveland shows more clearly the odiousness of the policies for which he stands. We have more to fear from those who, like Mr. Hill, indorse Mr. Cleveland's views, but conceal their purpose in ambiguous language.

Miss Toppan Not Guilty.

Barnstable, Mass., June 24. — Miss Jane Toppan, a nurse, was found "not guilty by reason of insanity" of the murder by poisoning of Mrs. Mary D. Gibbs, of Cataumet on Aug. 12, 1901, before a special sitting of the superior court here. The time occupied in the trial was scarcely six hours. When the government presented its evidence, the sensational incident appeared in the testimony of Dr. Henry R. Stedman of Boston, an alienist, who said that Jane Toppan told him, in the presence of other medical experts, that she had caused the death of Mrs. Gibbs by giving her a poisonous dose of atrophine and morphine. When the defense put its medical experts on the witness stand the contention of moral and mental irresponsibility of the defendant was maintained. Miss Toppan was ordered committed to Taunton insane asylum for life.

Fear Trouble at Dublin.

Dublin, June 24.—On account of the fear of serious disturbances of the peace coronation day, the lord mayor of Dublin, T. C. Harrington, has advised the Unionists to jubilate in the manner which will not offend anyone. He also urged the Nationalists to extend freedom, in the full sense, to those with whom they differ. Handbills have been circulated here which urge the children of Dublin not to attend the coronation entertainment to be given for them.

Election Excitement in Haiti.

Kingston Jamaica, June 24 — The steamer Paloma arrived here from Haiti. She reports that intense excitement prevails in that republic and that the feeling is growing with the approach of the elections. Serious fighting is considered certain to occur in spite of the efforts of the provisional government to maintain peace.

Paine's Celery Compound

DR. PHELPS'

Wonder-Working Medical

Prescription.

Mrs. Jennie H. Steel says:

"I Feel That It Has Saved My Life."

Paine's Celery Compound is the world's great leading medicine and life saver. It has no equal for feeding exhausted nerves—it stands first as a builder of the weak and shattered nervous system.

Paine's Celery Compound has long since proved itself as a banisher of dyspepsia, rheumatism, neuralgia, kidney disease, liver complaint and as a purifier of the blood. Thousands of men and women, tired out, sleepless, nervous, morose and despondent, have been given perfect health, strength and buoyancy of spirits through the wonderful use of Paine's Celery Compound. It has given a new and happy life to a vast number of people who were tired of life and suffering.

If your health is impaired; if you are burdened with any weakening or painful malady, use Paine's Celery Compound today; it is specially adapted for your case; it will make you well and strong. Mrs. Jenny H. Steele, Vaughns, Ga., writes thus:—

"I have suffered for years with what the doctors called neuralgia of the liver, and never had any relief from their medicines or anything else until I began the use of Paine's Celery Compound. I have taken about three bottles and have not suffered any since I began to take it. I feel that it has saved my life and hope all who suffer as I have will give Paine's Celery Compound a trial."

CARIBS NOT WIPED OUT

Extermination of the Race by Volcanic Eruptions Denied.

DID NOT LIVE ON MARTINIQUE.

But Few on St. Vincent Island, as English Government, It Is Said, Had Deported Them to Granada and Balize—Some Facts About the Race.

That the last of the Caribs have been exterminated by recent eruptions of volcanoes on the Windward islands is denied by authorities, who say that there was no member of the race on Martinique, and if any remnant was destroyed on St. Vincent it was not the fault of the English government, which deported 6000, the entire number then inhabiting this island in 1870, says the Chicago Evening Post. They are scattered throughout South and Central America, and representatives of the tribes are found occasionally on the group of islands in the sea that gets its name from them.

Students of ethnology have found the Caribs interesting and baffling subjects. Their origin is shrouded in mystery, and the black types often found in Balize and Honduras are taken by some scientists as proof that African blood was mixed with that of the Caribs long before the whites brought slaves to America.

The pure type of Carib differs radically from that of other natives of the Americas. It is now difficult to find the red native with the characteristics that distinguished him when his country was discovered by the Spanish navigators. Negro and Arowak blood is now so mixed with the Carib that the casual traveler in the tropics is confused.

When England deported the 6,000 men, women and children of the Caribbean race from St. Vincent, they were taken to Granada. A few years later they were taken to Balize. Professor Starr of the University of Chicago, who has spent some time in Central America, is of the opinion that no Caribs were destroyed by the recent volcanic disturbances in the Caribbean sea.

"They once inhabited most of the Lesser Antilles," he said, "but today they are mostly on the mainland. There were once three kinds, classified as island, coast and inland Caribs. When Columbus discovered America, the island Caribs were a powerful race in the Antilles. Ethnologists differ as to their movements previous to that time. Some authorities maintain that they were of a southern race moving north, but it is my opinion that the theory of a northern race going south is the correct one.

"As far back as any authentic history goes we find records of black Caribs. There is much evidence to prove that the black Carib existed long before the white people brought African slaves to this country. This has caused much interesting speculation and no doubt is proof of movements of people that we know nothing of.

"The Carib is of the South American Indian type. He is a very sturdy man. It is said they are the handsomest race native to the Americas. The Carib proved himself superior to other natives before the arrival of the whites arrested the progress of Indian affairs. They were good potters and were the only Indians that used sails for their canoes, which were the best made vessels found in America."

Caribs are often pointed out to travelers in South and Central America. They are proud of their race. They are industrious and are of great service to contractors in the east coast towns. When the Carib is not working, he will likely be found on some wharf. His holiday clothes make him a picturesque and pleasing object. White trousers and shirt, a red sash with a knife sticking carelessly in its folds and a white straw hat decorated with a folded white band is almost the fixed attire for a male. In this cool costume they are seen at the tropical ports, particularly in Balize, Guatemala and Honduras. Their black faces and bare black feet shine like ebony, and when they smile, which is not as often as is the habit of the African, a deal of ivory is shown.

Carib boys are almost the equal of fish in the water, and they dive after a coin thrown into the water, beat it to the bottom and lay there until it flutters down to them, the entire performance being visible in the transparent waters of their tropical sea.

THE CORONATION FLOWER.

Queen Alexandra Has Made Carnations Her Favorite Blossoms.

The probable coronation flower will be the carnation, according to a special cable dispatch from London to the New York Journal. This is Queen Alexandra's favorite flower, and she rarely appears in public without a bunch at her corsage. In expectation that the carnation will be the most popular coronation flower the florists are preparing to flood the market in June. At a flower show at Temple Garden the other day the queen lingered longest in the carnation booth and bought many plants. While the king was admiring the display a gardener, not recognizing him, rushed up and thrust his business card into the king's hand, saying: "Place your orders with me. I can save you money."

The queen laughed, and the king smiled. An equerry coming up at this moment, the gardener discovered the identity of the king and apologized awkwardly.

IF YOU HAVE A PAIN IN YOUR BACK

Do Not be deceived. You Have Kidney Trouble, and You Do Not need a Physician to Tell You So

Let us give you a piece of advice. Pain in the back is an almost infallible sign of kidney disease. A safer sign is the condition of your urine. If you have a pain in the back turn one to the window of your room. It is easily done. Take a glass tumbler and fill with urine, after it has stood 24 hours if it has a sediment, if it is cloudy or colored, if it is pale or discolored, strong or ropy, your kidneys and bladder are in a dangerous condition and need immediate attention or the consequences may prove fatal.

Dr David Kennedy's Favorite Remedy is the one medicine that really cures all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation and it will take you but a short time to convince yourself of its wonderful curative power.

G F Sammer of No 80 Tioga street, Syracuse, N Y, in a recent letter says:

"I was afflicted for years with severe pains in my back and kidneys. I tried many doctors and many medicines, but got no relief, for over two years I scarcely had a good night's rest on account of backache in the most distressing form. I bought a bottle of Dr. Kennedy's Favorite Remedy and commenced to use it and I must say I never imagined I should find such a wonderful cure. Why I feel like a young man again in spite of my 50 years.

All druggists sell Dr. David Kennedy's Favorite Remedy in the New 50 Cent Size and the regular $1.00 size bottles.

Men Again Called Out.

Hazleton, Pa., June 24.—The head of the firm having denied in Philadelphia that his engineers, firemen and pumprunners at the Sandy Run colliery had been granted the eight-hour day, the mine workers again called out the men, and they will be expected to stay away from their posts until the strike is ended.

No Shot Fired at the Emperor.

Berlin, June 24.—The dispatch published in The Rappel of Paris that a shot was fired at the train conveying the emperor of Germany to Dusseldorf is without foundation. The incident is in no way connected with the German emperor, and The Rappel's story is doubtless based upon the fact that somebody fired a shot last week into a passenger train going to Dusseldorf. Emperor William was not on board this train.

THE CELEBRATION

Will Greatly Benefit The Public Library Excursion.

The library board as well as many business men and clerks are pleased that we are to have special entertainment in Coshocton on the Fourth. While they realize that the time is too short to secure as great attractions as they would desire, yet it will be the business men's opportunity and in order to care for the people who come to town stores necessarily will be open. This will give business men and clerks their only real holiday on the third and will be the only day of business closing in general. Then many will go on the excursion who had planned to picnic somewhere in the country. After all July 3 turns out to be the best possible date for the excursion and our citizens.

Seashore Excursion.

Thursday, July 31, excursion tickets will be sold via Pennsylvania Lines to Atlantic City, Cape May, Avalon, Anglesea, Holly Beach, Ocean City, Sea Isle City, Wildwood, New Jersey, Ocean City, Maryland, and Rehoboth, Delaware. Return limit will cover the customary ten days' vacation. This will be a grand opportunity for a delightful vacation outing. For details apply to Wm. H. Kipp, ticket agent, Coshocton, O. 7-31

PEOPLE'S WANT COLUMN.

Free to Patrons of THE AGE.

All advertisements which come under the heads of for sale, for rent, situations wanted, lost, found, etc., will be printed free of charge for patrons of THE AGE. To others that patrons there will be a charge of five cents a line—count seven words to the line.

The announcements of business houses or agencies will not appear in this column. We hope our patrons will not hesitate to let their wants be known through this column.
